Professional Summary

Results-oriented Full-Stack Developer with hands-on experience designing and delivering web-based ERP, CRM, and AI-driven applications. Skilled in React.js, Next.js, Spring Boot, Node.js, REST API development, and SQL/NoSQL databases. Completed a 6-month AI/ML internship at Grevya Technologies where I led 2 projects as Team Lead, handling bug fixing, functional testing, and team coordination. Adept at building scalable, responsive applications with strong backend integration. Seeking a full-stack or software developer role to apply and grow technical expertise in a fast-paced environment.

Education

Bachelor of Technology — Information Technology

Graduation: June 2027

Sri Krishna College of Technology (Autonomous), Coimbatore | **CGPA: 7.64 / 10**

Technical Skills

Programming Languages: Java, JavaScript, TypeScript, Python, SQL

Frontend Development: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design, UI/UX Fundamentals

Backend Development: Spring Boot, Node.js, Express.js, REST API Development

Database: MySQL, MongoDB, Supabase, Data Modeling, Query Optimization

Data & Analytics: Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA)

Machine Learning: ML Workflows, Model Development, Python-based AI

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Figma, Netlify, Excel

Other: Bug Fixing, Functional Testing, Team Leadership, Agile Methodology, SDLC

Work Experience

AI/ML Intern — Team Lead — Grevya Technologies Pvt Ltd, Coimbatore

Feb 2026 – Jul 2026

- Successfully completed a 6-month AI/ML internship, contributing to 2 full-scale web projects — iRookee (job/internship portal) and HR Portal — serving as Team Lead on both.
- Led and coordinated a development team across both projects, overseeing task allocation, progress tracking, and delivery timelines in an Agile environment.
- Performed comprehensive bug fixing and functional testing across modules, reducing defect rates and ensuring production-ready quality before each release.
- Demonstrated dedication, technical aptitude, and professionalism throughout the internship — recognised in the official completion certificate issued by the Director.

Full-Stack Developer Intern — AJ&VG Media, Bangalore

May 2025

- Architected and delivered a web-based ERP and CRM application for the Textile Industry, centralising records for 50+ employees and buyers and reducing manual data entry effort significantly.
- Built a responsive React.js frontend integrated with Spring Boot REST APIs, improving component structure and API response handling for faster page performance.
- Optimised SQL database schema and queries across 5+ operational modules, improving data retrieval speed and ensuring consistent data integrity.

Projects

iRooke — Job & Internship Portal | Team Lead | Grevya Technologies

- Led the development of iRooke, a web-based job and internship portal, managing a team of developers and coordinating feature delivery across the full development lifecycle.
- Oversaw bug fixing, functional testing, and quality assurance processes to ensure a stable, user-ready product across all core modules.

HR Portal | Team Lead | Grevya Technologies

- Led the design and development of an HR management portal, coordinating the team to deliver modules for employee records, attendance, and workflow management.
- Managed functional testing cycles and resolved critical bugs prior to release, maintaining high reliability and data accuracy across the system.

KL Traders — Agricultural Exports Website | Full-Stack

- Designed and developed a premium agricultural exports website for KL Traders using Next.js 16, React 19, TypeScript, and Tailwind CSS v4, deployed on Netlify.
- Integrated Supabase for database management, storage (invoices, quotes, product images), and authentication, with a protected admin dashboard for managing customer inquiries, quote uploads, and invoice uploads.
- Implemented role-based access control with Supabase Auth securing all admin pages and API routes, with unauthenticated users redirected to login. Live at: kltraders.netlify.app

Freelancer Hiring Portal | Full-Stack Web Application

- Built a full-stack platform connecting clients and freelancers, supporting project postings, proposal submissions, and user profile management for multiple user roles.
- Implemented 10+ RESTful backend APIs using Spring Boot (Java) and a dynamic component-based frontend using React.js with role-based access control for 2 user types.

Fitness Mobile App — UI/UX Design | Nextskill Technologies, Coimbatore

- Produced end-to-end mobile application interface designs for a fitness tracking app using Figma, covering 15+ screens with a consistent layout, colour system, and navigation flow.
- Applied user flow mapping, wireframing, and prototype testing to deliver an intuitive design validated against UI/UX best practices.

Personal Portfolio Website

- Conceptualised and launched a responsive personal portfolio website to showcase technical projects and professional profile. Live at: harikanthportfolio.lovable.app

Certifications and Achievements

- Smart India Hackathon – Selected as Participant in national-level government-organised hackathon
- Dr. Kalam Young Achiever Award – Recognised as Participant among college-level nominees
- Event Organizer – Coordinated and managed technical events at Avantaa 2024, Sri Krishna College of Technology
- Completed online coursework in React.js Development and Python-based AI Fundamentals through recognised platforms
